Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Examiner agreed that the original specification page 7, last paragraph provides the support of the proposed amendment of claim 1 faxed on 11/20/2007, "comparing the first image feature with the second image feature to determine a level of similarity therebetween without breaking down the first and second image features per character into separate characters;" and further consideration of Ohya's Reference is needed to determine whether it has this teaching. In addition, further searches and consideration will be needed.
